To:  HAMILTON, BROOK, SMITH  & REYNOLDS, P.C.  Attn. Carroll, Alice O.  530 Virginia Road  P.O. Box 9133  Concord, MA 01742-9133  ETATS-UNIS D'AMERIQUE	NOTIFICATION OF TRANSMITTAL OF THE INTERNATIONAL SEARCH REPORT AND THE WRITTEN OPINION OF THE INTERNATIONAL SEARCHING AUTHORITY, OR THE DECLARATION  (PCT Rule 44.1)				
	Date of mailing (day/month/year) 13/12/2006				
Applicant's or agent's file reference 3194.1038008	FOR FURTHER ACTION See paragraphs 1 and 4 below				
International application No. PCT/US2006/029666	International filing date (day/month/year) 31/07/2006				
Applicant ENTEGRIS, INC.					
1. X The applicant is hereby notified that the international search report and the written opinion of the International Searching Authority have been established and are transmitted herewith.  Filing of amendments and statement under Article 19: The applicant is entitled, if he so wishes, to amend the claims of the International Application (see Rule 46): When? The time limit for filing such amendments is normally two months from the date of transmittal of the International Search Report.  Where? Directly to the International Bureau of WIPO, 34 chemin des Colombettes 1211 Geneva 20, Switzerland, Fascimile No.: (41–22) 338.82.70  For more detailed instructions, see the notes on the accompanying sheet.  2. The applicant is hereby notified that no international search report will be established and that the declaration under Article 17(2)(a) to that effect and the written opinion of the International Searching Authority are transmitted herewith.  With regard to the protest against payment of (an) additional fee(s) under Rule 40.2, the applicant is notified that:  the protest together with the decision thereon has been transmitted to the International Bureau together with the applicant's request to forward the texts of both the protest and the decision thereon to the designated Offices.  no decision has been made yet on the protest; the applicant will be notified as soon as a decision is made.					
4. Reminders  Shortly after the expiration of 18 months from the priority date, the international application will be published by the international Bureau. If the applicant wishes to avoid or postpone publication, a notice of withdrawal of the international application, or of the priority claim, must reach the International Bureau as provided in Rules 90 bis.1 and 90 bis.3, respectively, before the completion of the technical preparations for international publication.  The applicant may submit comments on an informal basis on the written opinion of the International Searching Authority to the International Bureau. The international Bureau will send a copy of such comments to all designated Offices unless an international preliminary examination report has been or is to be established. These comments would also be made available to					
the public but not before the expiration of 30 months from the priority date.  Within 19 months from the priority date, but only in respect of some designated Offices, a demand for international preliminary examination must be filed if the applicant wishes to postpone the entry into the national phase until 30 months from the priority date (in some Offices even later); otherwise, the applicant must, within 20 months from the priority date, perform the prescribed acts for entry into the national phase before those designated Offices.  In respect of other designated Offices, the time limit of 30 months (or later) will apply even if no demand is filed within 19					
months.  See the Annex to Form PCT/IB/301 and, for details about the applicable time limits, Office by Office, see the PCT Applicant's Guide, Volume II, National Chapters and the WIPO Internet site.  RECEIVED

Form PCT/ISA/220 (October 2005)

#### NOTES TO FORM PCT/ISA/220

These Notes are intended to give the basic instructions concerning the filing of amendments under article 19. The Notes are based on the requirements of the Patent Cooperation Treaty, the Regulations and the Administrative Instructions under that Treaty. In case of discrepancy between these Notes and those requirements, the latter are applicable. For more detailed information, see also the *PCT Applicant's Guide*, a publication of WIPO.

In these Notes, "Article", "Rule", and "Section" refer to the provisions of the PCT, the PCT Regulations and the PCT Administrative Instructions, respectively.

# **INSTRUCTIONS CONCERNING AMENDMENTS UNDER ARTICLE 19**

The applicant has, after having received the international search report and the written opinion of the International Searching Authority, one opportunity to amend the claims of the international application. It should however be emphasized that, since all parts of the International application (claims, description and drawings) may be amended during the international preliminary examination procedure, there is usually no need to file amendments of the claims under Article 19 except where, e.g. the applicant wants the latter to be published for the purposes of provisional protection or has another reason for amending the claims before international publication. Furthermore, it should be emphasized that provisional protection is available in some States only (see *PCT Applicant's Guide*, Volume I/A, Annexes B1 and B2).

The attention of the applicant is drawn to the fact that amendments to the claims under Article 19 are not allowed where the International Searching Authority has declared, under Article 17(2), that no international search report would be established (see *PCT Applicant's Guide*, Volume I/A, paragraph 296).

#### What parts of the international application may be amended?

Under Article 19, only the claims may be amended.

During the international phase, the claims may also be amended (or further amended) under Article 34 before the International Preliminary Examining Authority. The description and drawings may only be amended under Article 34 before the International Examining Authority.

Úpon entry into the national phase, all parts of the international application may be amended under Article 28 or, where applicable, Article 41.

#### When?

Within 2 months from the date of transmittal of the international search report or 16 months from the priority date, whichever time limit expires later. It should be noted, however, that the amendments will be considered as having been received on time if they are received by the International Bureau after the expiration of the applicable time limit but before the completion of the technical preparations for international publication (Rule 46.1).

#### Where not to file the amendments?

The amendments may only be filed with the International Bureau and not with the receiving Office or the International Searching Authority (Rule 46.2).

Where a demand for international preliminary examination has been/is filed, see below.

#### How?

Either by cancelling one or more entire claims, by adding one or more new claims or by amending the text of one or more of the claims as filed.

A replacement sheet must be submitted for each sheet of the claims which, on account of an amendment or amendments, differs from the sheet originally filed.

All the claims appearing on a replacement sheet must be numbered in Arabic numerals. Where a claim is cancelled, no renumbering of the other claims is required. In all cases where claims are renumbered, they must be renumbered consecutively (Section 205(b)).

The amendments must be made in the language in which the international application is to be published.

# What documents must/may accompany the amendments?

#### Letter (Section 205(b)):

The amendments must be submitted with a letter.

The letter will not be published with the international application and the amended claims. It should not be confused with the "Statement under Article 19(1)" (see below, under "Statement under Article 19(1)").

The letter must be in English or French, at the choice of the applicant. However, if the language of the international application is English, the letter must be in English; if the language of the international application is French, the letter must be in French.

# WRITTEN OPINION OF THE INTERNATIONAL SEARCHING AUTHORITY

International application No. PCT/US2006/029666

	Box No	o. I Basis of the opinion				
1.	. With regard to the language, this opinion has been established on the basis of:					
	⊠ the	international application in the language in which it was filed				
	□ at	ranslation of the international application into , which is the language of a translation furnished for the rposes of international search (Rules 12.3(a) and 23.1 (b)).				
2.	With re necess	gard to any <b>nucleotide and/or amino acid sequence</b> disclosed in the international application and ary to the claimed invention, this opinion has been established on the basis of:				
	a. type	of material:				
		a sequence listing				
	. 🗆 .	table(s) related to the sequence listing				
	b. form	at of material:				
		on paper				
		in electronic form				
	c. time	of filing/furnishing:				
		contained in the international application as filed.				
		filed together with the international application in electronic form.				
		furnished subsequently to this Authority for the purposes of search.				
3.	has cop	addition, in the case that more than one version or copy of a sequence listing and/or table relating thereto is been filed or furnished, the required statements that the information in the subsequent or additional pies is identical to that in the application as filed or does not go beyond the application as filed, as propriate, were furnished.				
4.	Addition	nal comments:

### Re Item V.

1 Reference is made to the following documents:

D1: EP 1 343 202 A (EBARA CORP [JP]) 10 September 2003 (2003-09-10)

D2: EP-A1-0 617 573 (IBM [US]) 28 September 1994 (1994-09-28) cited in the

application

Document D1 discloses (the references in parentheses applying to this document) a 2 transfer container, i.e. a substrate transport pod and a method for loading the substrates into a pod from an atmosphere of a first process, and circulating a gaseous atmosphere through interior of the pod in such a way to selectively remove at least one contaminant including moisture, particulate substances or chemical substances, and to expose the substrates to a controlled atmosphere intermittently or continually while the substrates are held in the pod before unloaded from the pod and introduced into a second process. The transfer container (1) of D1 has an enclosure, a purifier comprising gaseous contaminant capture medium (6), dehumidifying agent (8) surrounded by a particle filter (5) attached to the enclosure (cf. Figs. 4-11), the purifier configured to purify fluid (i.e. air) flowing into the enclosure and a fluid propeller, i.e. a fan (7) attached to the enclosure (cf. Fig. 71b), propelling fluid through the purifier into the enclosure. D1 also discloses a front opening unified pod (FOUP) having the same characteristics as the FOUP as specified in claim 5 of the present application, including a battery as energy source for the fan (9) attached to the enclosure and the purification material being enclosed in a replaceable cartridge (cf. par. 00065).

# 2.1 INDEPENDENT CLAIMS 1, 12, 14 AND 19

As can be seen from the above, document D1 discloses in combination all the features defined in all independent claims. Hence the subject-matter of these claims is not new (Article 33(2) PCT).

DEPENDENT CLAIMS 2-11, 13, 15-18

Dependent claims 2-11, 13, 15-18 do not contain any features which, in combination

with the features of any claim to which they refer, meet the requirements of the PCT in respect of novelty and/or inventive step (Article 33(2) and (3) PCT).

# Re Item VII.

- 1. Independent claims (which at present do not represent novel subject-matter (cf. and are not clear in the sense of Article 6 PCT (cf. item VIII) are not in the two-part form in accordance with Rule 6.3(b) PCT, which in the present case would be appropriate, with those features known in combination from the prior art (documents D1, D2) being placed in the preamble (Rule 6.3(b)(I) PCT) and with the remaining features being included in the characterising part (Rule 6.3(b)(ii) PCT).
- 2. The features of the claim/s are not provided with reference signs placed in parentheses (Rule 6.2(b) PCT).
- 3. Contrary to the requirements of Rule 5.1(a)(ii) PCT, the relevant background art disclosed in the document D1 is not mentioned in the description, nor is this document identified therein.
- 4. The wording "incorporated by reference" (see p. 1, par. 1, p. 9, l. 15-16, p. 18, l. 4-5, l. 24-25) is usually deleted from an application as it renders the scope of the description unclear (Article 6 PCT). If matter in the document referred to is essential to satisfy the requirements of Article 5 PCT, at least a summary thereof should be incorporated into the description (Guidelines C-II, 4.17). With respect to the current practice the wording "incorporated by reference" should be deleted.

# Re Item VIII.

- 1. The application does not meet the requirements of Article 6 PCT, because claims 1, 12, 14, and 19 are not clear.
- 1.1 Although claims 1, 12, 14, and 19 have been drafted as separate independent claims, they appear to relate effectively to the same subject-matter and to differ from each other only with regard to the definition of the subject-matter for which protection

# WRITTEN OPINION OF THE INTERNATIONAL SEARCHING AUTHORITY (SEPARATE SHEET)

PCT/US2006/029666

is sought and/or in respect of the terminology used for the features of that subjectmatter. The aforementioned claims therefore lack conciseness and as such do not meet the requirements of Article 6 PCT.

2. The vague and imprecise statement in the description on page 20 ("...without departing from the scope of the invention encompassed...") implies that the subject-matter for which protection is sought may be different to that defined by the claims, thereby resulting in lack of clarity (Article 6 PCT) when used to interpret them.
